# Results

- ❖ Members of the PNPVAC used the tools and filed over 90 reports and over 620 reports on map.
- ❖ Based on these local and national evidence, NGO reports on VAC were written and submitted to the UN Committee on the Rights of the Child and The Special Representative of the UN Secretary General on VAC.
- ❖ The recommendations provided to Turkey therefore were both local NGO driven and created a case for NGOs in Turkey to link local to international for policy advocacy to end VAC.

## Conclusion

Online reporting tools used by CSOs at the local level as a contribution to a national report on violence against children (VAC) constitutes an innovation in participatory research for an evidence based policy advocacy in practice by small local civil society organisations (CSOs) in resource and data poor environments, such as in Turkey.

Keep learning from children!

Thanks for listening!
